

16.01.2019

To our valued Clients and Partners:

ECO/ECO+ Panels phase-out schedule – End of Life notification

Effective immediately, we are announcing the discontinuation of the ECO/ECO+ Panels.

As the ECO+ models are able to run any application made for the ECO variant without any adaptations being necessary, but the contrary is not always possible, only the supply of ECO+ models will be guaranteed, being the ECO variant available until stock lasts.

The availability of ECO/ECO+ Panels is guaranteed according to the following plan:

ECO Panels			
Size	Article No.	End of Sales	End of Service
4,3"	62E-MHC0-DH	Until stock lasts	14.10.2019
7"	62H-MHC0-DH	Until stock lasts	14.10.2019
10,4"	62K-NHC0-DH	N/A	N/A
15"	62P-NHC0-DH	Until stock lasts	14.10.2019

ECO+ Panels			
Size	Article No.	End of Sales	End of Service
4,3"	62E-MHC0-CB	14.05.2019	14.10.2019
7"	62H-MHC0-CB	14.05.2019	14.10.2019
10,4"	62K-NHC0-CB	N/A	N/A
15"	62P-NHC0-CB	14.05.2019	14.10.2019

Accessories			
Accessory	Article No.	End of Sales	End of Service
MPI/PB interface	961-0MP0	14.05.2019	14.10.2019
Prot. Foil 4"	574-1BC01	Until stock lasts	14.10.2019
Prot. Foil 7"	574-1BS01	Until stock lasts	14.10.2019
Prot. Foil 10,4"	574-1BG01	Until stock lasts	14.10.2019
Prot. Foil 15"	574-1BK01	Until stock lasts	14.10.2019

End of Sales: Last possible date to order an article. The article is no longer available after this date.

End of Service: Last possible date for repair orders.

ECO/ECO+ applications may be migrated to other product lines, with the following considerations:

ECO Panel		Suggested replacement			
Size	Article No.	Line	Size	Article No.	
4,3"	62E-MHC0	smartPanel	4,3"	H41-71A41-0	Different mounting dimensions, the smartPanel model dimensions are slightly bigger. MPI/PROFIBUS communication can only be realized via an MPI/PROFIBUS adapter programming cable(950-0KB01).*PROFIBUS limited to 187,5 kbps only. *PROFIBUS limited to 187,5 kbps only.
	62E-MHC0-CB				
7"	62H-MHC0-DH	smartPanel	7"	H71-71A41-0	Different mounting dimensions. A mounting adapter is available (HYA-7E7S). MPI/PROFIBUS communication can only be realized via an MPI/PROFIBUS adapter programming cable(950-0KB01).*PROFIBUS limited to 187,5 kbps only.
	62H-MHC0-CB				
10"	62K-NHC0-DH	Professional Panel	12"	62M-JID0-CB	Same mounting dimensions. The ECO Panel has 2 separate Ethernet interfaces. The Professional Panel has a 2-port Ethernet switch.
	62K-NHC0-CB				
15"	62P-NHC0-DH	Panel PC	15"	67P-RRJ0-EB	Different mounting dimensions and aspect ratio (needs HMI project adaptation). MPI/PROFIBUS communication can only be realized via an MPI/PROFIBUS adapter programming cable(950-0KB01).*PROFIBUS limited to 187,5 kbps only.
	62P-NHC0-CB				

Sincerely,

Vitor Pfeifer
Product Manager HMI
